H. M. KENT'S,

HARRISON'S

Columbian Tonic Stimulant.

WILL cure all diseases caused by prostration of digestive power. Its action is immediate as a stimulant, to rouse the vital energy to its healthy force; as a tonic, to sustain and perpetuate that force till healthy secretions are restored and natural power returns. It will remove all mild forms of Cholera, Cholera Morbus, Dysentery, Bilious Cholic, Fever, and Fever and Ague, and in connection with *Harrison's Columbian Vegetable Emetic* will cure the most severe cases of these and other acute diseases in the shortest possible time. The Dyspeptic finds immediate relief, and permanent cure in its use. For all Bronchial and Pulmonary affections, it has great restorative efficacy.

The alcohol and opium inebriates will find it a perfect substitute for both these disease-engendering and health destroying articles. It is an exclusively vegetable composition and a pure tonic and stimulant without the slightest diseasing property in its composition or action on the system. The friends of Temperance then will find it an agent of great potency in their cause, and that the vitiated cravings of a diseased appetite under its use will give place to healthy action and natural desire. It is delicious to the taste, and grateful to the sensibilities of the stomach. It may be taken in its present form of a *rich syrup*, or in water, making a *delightful beverage*. As a daily beverage, its deliciousness is unequalled by any fermented or alcoholic preparation. It prevents as well as cures disease. Its use is applicable in all climates, in all seasons, to all diseases, and in all conditions of life, and from extreme of infancy to extreme of age. Price $1.

HARRISON'S

Columbian Vegetable Emetic

Will withdraw and expel all diseased matter, solid, fluid, or gaseous, from all parts of the system. Besides its emetic properties, it is expectorant, alterative, and anodyne. It acts in each of its modes according to *nature*, relieves the laboring organism of diseased matter, and permits a free action of its natural functions to restore strength. It is the only *safe* and *certain* medicine in all severe forms of Cholera, Cholera Morbus, Bilious Cholic, Dysentery, Pleurisy, and every other acute disease. It has great remedial power in all Chronic diseases. In both acute and chronic diseases, assisted by the invigorating and sustaining power of *Harrison's Columbian Tonic Stimulant*, cures are certain. Principles of treatment and directions for use accompany each medicine. Price 50 cts.

INHALATION

—FOR THE—

Cure of Consumption

Dr. Ira Warren's New Remedy.

THE most astonishing cures of Lung Diseases have been effected by the use of Dr Warren's

Inhaling Balm.

A vaporized preparation, for inhaling, directly into the lungs, *where the local disease is.* The BALM is presented with the fullest confidence that it is the best medical agent ever employed for the cure of Consumption and Asthma. Many certificates of those who have been cured, or materially benefited by this medicine, may be seen in the hands of agents. It has accomplished the most wonderful cures in the city of Boston and vicinity, and is producing an impression on diseases of the lungs never before witnessed by the medical profession.

It has restored to health those upon whom disease had made rapid and fearful advances and where other remedies had proved unavailing. Being *vaporized* and inhaled, it enters every air cell and every particle of the lungs. Its action is mild and agreeable, while its salutary effects are truly wonderful. The *Vapor Inhaler* is made of silver and glass, and is admirably adapted to its purpose.

We invite the closest inspection and scrutiny of physicians, confident that our preparations will meet with universal approval.

Pulmonic Cherry Cordial.

Supports the stomach and improves digestion, and fulfils the end of a philosophical treatment of Consumption better than any other article. It is admirably calculated to relieve the obstructed state of the chest which is so often met with in lung diseases, and is highly efficacious in relieving coughs of long standing. It is a safe remedy in any stage of Asthma. Used in connection with the *Inhaling Balm*, the compound of Cod Liver Oil, as prepared from Dr Warren's recipes, it will be found to have curative powers far superior to any other article before the public.

Price $5 a package. Any person enclosing $5 to BURR & PERRY, No 1 Cornhill, Boston, will receive a package containing a bottle of Pulmonic Cherry Cordial, one of Inhaling Balm and the Medicated Vapor Inhaler, in a neat box, by Express, free to any part of the United States or British Provinces.

S. WARREN & AYER, proprietors. For sale wholesale and retail, by BURR & PERRY, General Agents, No 1 Cornhill, Boston, G. F. Sargent & Co., Bangor, and for sale by all druggists.

Dr. Ira Warren's

Compound of Pure Cod Liver Oil, Lime & Sugar of Milk.

The great value of Cod Liver Oil as a medicine in Consumption is now generally admitted. It corrects a bad assimilation, the primal defect in this disease, by initiating the growth of cells—the cell resulting, according to Dr Burnett, from the union of a minute particle of oil with albumen, under the quickening force of vitality. The Phosphate of lime has been proved to promote the same great end, throughout both the vegetable and the animal world.

The Sugar of Milk, manufactured solely from the whey of Goat's milk, being a supporter of respiration in weak lungs and having a powerful affinity for oxygen, greatly aids the above remedies in Consumption, and when properly combined with them, makes an elegant preparation, removing much of the offensive taste and smell of the oil and supplying a saccharine combustive for the lungs, much like that elaborated by a healthy liver.

In conducting a large special practice in *Throat and Lung diseases*, Dr Warren resorts directly to the fisheries for pure Oil. The excellence of this combination will be at once appreciated by the medical profession, and a trial of it will commend it to the people generally.

AGENCY FOR BUSINESS

WITH U. S. PATENT OFFICE,

WASHINGTON.

No. 76 State Street, opposite Kilby St.,

BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Agent of the U. S. Patent Office under the Act of 1837,) determined to present advantages in applying for patents superior to those offered inventors by others, has made arrangements, whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments, and all necessary papers and drawings for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors here not only can obtain their specifications on the most reasonable terms, (generally about 50 per cent. less than those of others in the profession,) but avail themselves of the experience of twenty years' practice, his visits to the Patent Office, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries. Besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one dollar*. Assignments recorded at Washington. Patents in Great Britain, France and other foreign countries secured through agents of the highest respectability.

R. H. EDDY, *Solicitor of Patents.*

"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

[From the present Commissioner.]

"August 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office as a Solicitor. He is thoroughly acquainted with the law and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

MATTERS IN THE CRIMEA—KINBURN AND NICOLAIEFF.—The new movement of the Allies made with a view of affecting the Russian communications with the Crimea, is one of much importance. The fortress of Kinburn, which has been taken by the allied fleet, is situated on the point of a long, narrow neck of land which forms the seaward boundary of the estuary or Bay of Dnieper. The fortress, therefore, commands the navigation of that great river. It is about forty miles distant from Odessa—across the bay.

Nicolaieff is the site of a Russian dock-yard about 35 miles from Kinburn, on the left bank of the Ingul at its junction with the Bug—which river also flows into the Bay of Dnieper. The capture of these two places will give the Allies command of one of the most important communications with Perekop and the Crimea—and with the exception of Perekop itself they constitute perhaps the most important points of attack on the northwestern coast of the Black Sea. Their possession will hasten the fall of Odessa—an occurrence which the Russians regard with much apprehension. It was hoped by them, on account of the advanced state of the season, that no expeditions of importance would be attempted by the Allies, unless in the immediate vicinity of their positions around Sebastopol—and that Odessa would therefore escape any serious attack until another spring, at least. The recent movement of a powerful expedition, by water, and its appearance before Odessa—together with the capture of Kinburn and the evident intention to take possession also of Nicolaieff, as well as of the important town of Cherson, situated at the head of the estuary and near the mouths of both the Dnieper and the Ingulez—proves that the Russians were somewhat mistaken in their calculations. Although the last intelligence speaks of the Allies taking up their winter quarters, it is not improbable that the fleet will make a dash at Odessa at any moment. If the Allies obtain possession of all the points named above, Kinburn, and also of Odessa, which is the principal commercial port on the Black Sea—which it seems certain they will speedily do—they will have accomplished more satisfactory and profitable work than has been done by an equal force, in so short a time, during the war.

POST OFFICE, OLDTOWN, Nov 16.

Messrs Wheeler & Lynde:—For the last week your daily papers received at this office have been one day behind. Considerable fault is found by subscribers. I suspect the fault must be out of your office, as it is the same with the Journal. Will you endeavor to correct the mistake. Yours truly,

S. R. COWAN, P. M.

The difficulty has been in consequence of some change of mail arrangements in the time for Post Offices; but we are assured that the matter shall be straitened in a few days.

The rainy season, which commenced in this region about the first of October, has not yet ended, another rain storm coming on from the South-eastward.

During the past six weeks we have had but two or three fair days in succession. Rainy weather has been the rule and fair weather the exception. We may therefore properly denominate it the rainy season, as it approaches the character of the rainy seasons in some portions of the tropics and on the Pacific coast.

[The weather cleared off cold last evening.]

LAUNCHED, at Bluehill, about two weeks since from the yard of J. Holt, a fine brig of 160 tons.

Also at Bluehill on the 9th, an excellent bark of 300 tons, from the yard of J. Hinckley—owned by Mr Hinckley and several others. The master builder was Mr Davidson, who built the fine ship Ocean Ranger last year.

KANSAS.—On the third day's session of the Free Constitutional Convention now in session at Topeka in Kansas a petition was received from a clergyman in Leavenworth, asking that a clause be inserted in the Constitution, making all Ministers of the Gospel, excepting Catholics, eligible to office. It was unanimously laid on the table.

POLITICAL RUMORS.—The Belfast Age says it is understood in that section, that a part of arrangement in regard to the offices, has been made between the Straights and Democrats, one article of which is that Mr Reed shall accept the Treasury Department in full discharge of claims—and that his friends shall render their necessary aid in making Judge Wells, Governor.

We are obliged to Mr R. A. Rideout, one of the pupils of the Garland High School, for copies of "The Acorn," a neatly printed and well filled publication, issued by the scholars of that institution. The matter is all original; and many of the articles evince a creditable degree of cultivation and thought.

An interesting contest is going on in Baltimore. Theodore Lent, being probably a man of taste, has married the lovely Julia Pastrana, otherwise called and known as the "Bear Woman," and the question now is, whether she belongs to her husband, her guardian, or her lessee.

ACCIDENT TO STEAMER ROCKLAND.—We learn that the steamer Rockland, while going into Bluehill, on Thursday morning, run upon a rock, near that place, and that her machinery was damaged to such an extent as to make it necessary to send her to New York for repairs.

The Lawrence Courier says that "democracy is a sort of stepping stone between whiggery and perdition;" and the Haverhill Banner quotes from Watts: "Stop, poor sinner, stop and think, Before you further go."

[illegible] HIS COUNTRY FOR HIS COUNTRY'S GOOD.—[illegible] tion has been received that Philip Weaver, absconding City Marshal, took the Montreal train at Danville Junction on the 14th, and of course is now under the protection of the British lion.—*Journal.*

So far is this from being true, that we learn that Mrs Weaver received a despatch from her husband, dated at Boston, on Thursday evening.

We learn also, that the Marshal did leave his letter of resignation in town when he left, together with a letter, which have come to the hand of the Mayor since the recent meeting of the Council. They were doubtless intended to be presented to the Council.

The following are the contents of the letter:—

BANGOR, Nov. 13, 1855.

T. H. Hayward, Esq.:

Enclosed you will find a paper announcing my resignation, which you will please lay before the Board of Aldermen, at their meeting to-morrow evening.

I deem it my privilege, and my duty to myself and family, to leave the city for the present, to avoid the annoyance and abuse which I have endured for several days. I shall return in a short time, when I hope to find the public mind calmer, and better prepared to take a just view of matters relating to myself.

All pecuniary matters between the city and myself shall then be properly and satisfactorily adjusted. Yours truly, P. WEAVER.

The question arises, how it happened that these papers did not find their way to the Mayor's box at the Post Office until the day after the meeting of the City Council at which they were to be presented?

Since writing the above, we have received the following despatch:

BOSTON, Nov 16.

I see that certain editors in Bangor are laboring to produce the impression that I have absconded to Canada. I have no occasion to leave my country. I am attending to my own business, and shall return to Bangor in a few days, when I will meet those editors.

PHILIP WEAVER.

THE REFUGEE, or the Narratives of Fugitive Slaves in Canada—related by themselves—With an account of the History and Condition of the Colored Population of Upper Canada. By Benjamin Drew. Boston: John P. Jewett. 1855.

In this volume are brought together the personal narratives of more than a hundred colored residents of Canada, detailing their experiences and sufferings in making their escape from slavery in the United States. It contains stories of most thrilling interest, surpassing anything which is to be found in the pages of romance. They are given in the language of the narrators themselves, and are of course unpretending and imperfect in style, but the author vouches for their general authenticity. The book presents a "North Side" View of Slavery, which is sombre enough.

AMERICAN FEMALE EDUCATION.—What? and by whom? is an excellent Treatise in the shape of a lecture, by M. N. Cushing, A. M., Principal of the Mount Vernon School, Boston. Published by John P. Jewett & Co. For sale by Duren.

COMICAL STORIES ABOUT FARMERS AND OTHER FUNNY PEOPLE. With illustrations by Billings. Boston: Ticknor & Fields. 1856.

An attractive little book for children, and a proper gift to those who are old enough to extract the moral of the stories, which is generally of an improving character. Moral precept for children is oftentimes advantageously presented in fiction—but the danger is of instilling too strong a taste for mere story reading. Some of the stories in this book are amusing, and must be highly popular with the juveniles.

For sale by Patch & Lewis.

THE LAMPLIGHTER PICTURE BOOK—or the Story of Uncle True and Little Gerty. Written for the Little Folks, by a Lady. Boston: John P. Jewett & Co. 1856.

A popular little book for children—the story drawn from the well known and affecting romance of the Lamplighter which has delighted many of our people. For sale by Duren.

EXAMINATION OF THE BOYS' HIGH SCHOOL.—The Boys' High School, taught by Mr Waters, was examined yesterday forenoon by the Committee, previous to the Thanksgiving vacation. A goodly number of our citizens, gentlemen and ladies, were present and manifested much interest in the exercises. The school appeared uncommonly well in all the recitations; and in mathematics the first class fairly exceeded even the former reputation of the school. This class recited very promptly in algebra, quite as far as is taught at most of the colleges, and it was remarked by a graduate of Bowdoin College, who was present, that few graduates could do better than this class.

Suggestive and complimentary remarks were made by the committee and by several gentlemen.

THANKSGIVING.—All persons knowing families who ought to be remembered at the approaching Thanksgiving, are requested to leave their names and residences at either of the bookstores, as early as Monday next. This request is made necessary, as many families change their residence often, and their present places of living may be unknown to the subscriber. Besides, there may be families unknown to him, who ought to be remembered.

Nov 16. [illegible]

The Buffalo Advertiser states that Mr. [illegible] B. Avery, late a lieutenant in the Navy, and a victim of the retiring Board, is to be placed in command of one of the best clipper ships sailing out of New York.

Judge Perkins, of the Supreme Court of Indiana, has pronounced the Prohibitory Liquor Law of that State unconstitutional.

MATRIMONIAL HORNS.—Putnam's Monthly for November has a very pleasant article, entitled "Notes on Syria." We take from it the following description of a fashion in dress among the Syrian women, which the writer offsets against the stove-pipe hats so much in vogue among the gentlemen of this civilized land:

But there is one article of fashionable costume in Mount Lebanon, more useless and very nearly as ugly as a beaver. On her bridal night, a girl of the mountain is cumbrously harnessed with something that, for want of a better name, may be called a horn. To take a horn on such an occasion is no great novelty to be sure, but the oddity of it here consists in its being put upon instead of into the head. It is a monstrous tube, about sixteen inches in length, rudely chased and fretted, usually of silver, but sometimes of brass, or even dried dough, and sometimes, too, of gold, set with rubies. It is fastened to the upper part of the forehead by means of a small cushion and a number of silk cords, which pass under the chin and interlace with the hair. It projects forward at an angle of about sixty degrees, and its fatiguing weight is balanced by three or four huge tassels of silk and silver, which dangle behind. A veil is thrown over its pinnacle, and hangs there, to use a comparison of the Slick family, like a shirt on a bean-pole. Wherever she goes, whatever she does, the matron of Mount Lebanon must wear her horn. She visits in it, works in it, and worst of all, sleeps in it. This last circumstance is terrifying, and leads me to hope that my own countrywomen will never adopt the fashion. What an unpleasant circumstance to be bruised and gored in one's slumbers by the antler of a restless wife! How a man would be surprised, to wake up for the first time with the end of one of these ponderous cones in his eye! It is a wonder to me that any Syrian babies survive sleeping with their mothers. Perhaps, indeed, this is the reason why Arab infants visit so cautiously with [illegible] and guarded by a sevenfold parade of bandages. In point of fact the men often grumble, and seek to divest their spouses of such a costly and annoying decoration. The war of 1840 helped them wonderfully to this end, although in a way that was very disturbing to their nerves and purses. As the Druzes whipped the Maronites in almost every battle, they had large opportunities for plundering the Maronite districts, which they improved with great zeal and faithfulness. And wherever they met a married woman, they would have her horn as a souvenir of the interview. In short, horns became such uncertain property, that most people put them into concealment and only enjoyed them in private, as topers enjoy theirs under the pressure of the Maine Law. A sort of interregnum thus ensued and continued so long that the traditional influence of the custom became sadly dilapidated. At the end of the war, horns went up again, like stocks, but diminished in number, and much weakened in popularity.

The dwelling-house of David Bowman of Sidney, was burned on the night of the 5th inst., with all its contents, together with a quantity of grain and a new wagon in an adjoining shed.

At Davenport, Iowa, recently, when some lots of ground were to be sold at auction for non-payment of taxes, the sale by the direction of the authorities was opened with a prayer.

A Paris letter in the Tribune speaks of a young lady who received intelligence from the Crimea of the death of her lover, her father, brother and uncle, all by the same post. Such is War.

THE FOOD AND FINANCIAL CRISIS IN FRANCE.—The New York Daily Times contains the following article:—

The financial crisis, in which France is at present enveloped, assumes every day a more critical and serious form. The public funds and all paper securities are falling in value in a most alarming manner, and the Bank of France, by raising the rate of discount from 3 to 5 per cent, has caused a panic which has seized upon the entire commercial world. In fact the situation of the Bank of France is quite abnormal. The returns of the month of September, 1854, compared with those of September, 1855, show a decrease in the [illegible] of $33,600,000, while the bank note circulation is increased $10,000,000. The amount of bills discounted by the Bank in 1855 was doubled, and the advance upon shares of industrial enterprises more than doubled. France has not like England an India or an Australia to replenish her Treasury, and although the Bank has lately made large purchases of silver and gold, it has not been able to ameliorate its position. The National Loans made necessary by the war, and extemporaneous and unequal speculations, have been the cause of the Bank's present situation, which will become worse by the prolongation of the war and the insufficient harvest. Should France be obliged to carry on the war for another year she must provide one thousand millions of francs, besides the resources of the budget. And the grain and breadstuffs which it will be necessary to import to supply the deficit of the harvest, will require at least an equal amount in addition.

In order therefore, to provide for the colossal expenses of the war the government will be obliged to have recourse to a fourth loan, and the rumor that this loan by itself will be of a larger amount (1500 million francs) than the three former loans together, does not appear ill founded. But the question is, will this be of effectual aid? These are the principal features of the financial position of France at the present moment, and it is not to be wondered at that the public mind is filled with care and apprehension. The crisis has not yet reached its acme, and if the government does not employ all its prudence and foresight, a catastrophe is inevitable.—*N. Y. Times.*

The Baltimore Patriot of Friday last says: One of the most heartless and brutal outrages we ever heard perpetrated took place yesterday afternoon on the person of a small boy. It appears that a number of boys over in the 6th ward were hurrahing for "Sam," when a carpenter—a German—who was working close by, told them if they did not cease he would saw their fingers off; when a little boy, six years old, a son of Mr. E. C. Pales, gave another shout for "Sam," when the wretch caught him and sawed off two of his fingers, which fell to the ground under the plank upon which the little fellow's hand was held. Such brutality cannot go unpunished. He was immediately arrested and taken before Justice McAllister, who committed him to jail. We could not learn the name of this brute, but we saw the boy this morning, who was suffering very much from the wound.

A CRIMEA IN NEW HAMPSHIRE.—Within two miles of this city, on the banks of the Souhegan river, there is a spot of land, including about a thousand acres, as we estimate it, which furnishes a perfect model of the Crimea, and its geographical features. Standing upon a bluff which overlooks it, the spectator can see at a glance every physical peculiarity which marks the Crimea, from the Isthmus of Perekop to Cape Tarkhan, thence to Sebastopol, the Straits of Kertch, and back by the Sea of Azoff and the Putrid Sea to Perekop. The locality is a most romantic one besides.—*Concord Patriot.*

SOUND DOCTRINE.—The American party of New Hampshire at its last State Council, passed the following resolutions, to the sentiments of which we heartily subscribe.

Resolved, That freedom being national and slavery sectional, while the latter is left in the exercise of all its strictly constitutional rights, in the States where it now exists, its further extension and long connection with the general government should be uncompromisingly opposed and resisted, and all laws or the execution of its existing privileges, be made to conform to the dictates of justice and humanity.

Resolved, That the question of the extension of slavery, as now presented to the country by the repeal of the Missouri Prohibition, by the outrages practised in Kansas, under the sanction of the administration, and by the decision of an arbitrary and tyrannical Federal Judge, which if adopted as the judicial doctrine of the government will make every Free State in the Union, slave territory, is the paramount question now before the nation, and that we believe the time has arrived when all who oppose the further encroachments of slavery, and would restore the policy of the Fathers of the Republic, should unite their efforts and co-operate for that purpose.

THE TRAIN WHICH WAS BLOWN OVER BY A HURRICANE.—The following details are given of the recent singular disaster on the Harlem Railroad.

It appears the train had left Albany at 4 30 A. M. and arrived at Chatham Four Corners at 6 28, with three passenger cars and a baggage car. After stopping at Copake—a station about thirty miles below Chatham Four Corners—the train arrived at the place known as the Taconic or Towar range of Berkshire mountains, the boundary line between Massachusetts and New York. This part of the road is very much exposed to a high wind, owing to a narrow valley between two mountains, which, when the wind is in, concentrates it, and the most fearful gales are experienced in this part of the road when the wind in other places is even moderate.

During the whole of Monday night, the wind was very high and a heavy rain was falling, and as the train was passing, a fearful gust came up from the valley, and the cars of the baggage car were blown in, and in a moment the car was hurled off the track and rolled down an embankment some forty feet deep. The coupling which attached it to the engine snapped in a moment but the passenger cars were jolted off the track and were blown by the wind after the baggage car.

The scene that followed was fearful. The cars rolled over three times and came to the bottom of the embankment with a heavy crash. At this time of the morning it was pitch dark, the rain was falling heavily, and the groans and shrieks of the mutilated passengers were heard with dreadful distinctness above even the noise of the tempest.

The conductor, Mr R. J. White, who was in the middle car, extricated himself from the ruins as soon as possible and succeeded in despatching the engine to Hillsdale, the next station [illegible] where aid was procured and the wounded [illegible] cared for. Fortunately there were but thirty passengers in the train, and of those strange to say, some [illegible] were uninjured.

Two persons were killed, and seventeen wounded.

BRANDY TEA vs. BRANDY.—Mr L——, a famous scene painter, had a fancy that he could cure all diseases—and accordingly prescribed liberally for his friends and those willing to fall under his hands. A person of great faith applied to him for a cure for a very bad cold, and L——'s advice was—

"Do you see, sare, can you like to drink brandy tea?"

"Brandy," replied the patient, nothing loth to find so palatable a medicine had had his head inclined, "Certainly I have no objection to it whatever."

"Vy, then," said L——, "brandy tea is the very thing for you. Take three, four—ees, four—cups of it as hot as you can soup—good big tea cups, just after breakfast."

"What, sir," asked the patient, rather amazed, "Without water?"

"Without vater," said L——, "vat do you mean? No more vater then is in the brandy tea itself ven made. Take it as you get it—take four large very large cups, between breakfast and dinner, and you vill find a change for better or worse, coming to me."

The faith of the patient was great, and so was his swallow. For lo he did it, and to be sure it was that he had the prescription. If the painter—who [illegible] all day—[illegible] the conclusion of his [illegible] to L—— full of gratitude for his advice.

"I am quite cured Mr L——," said he, "I never imagined that *brandy tea* was so complete a cure—I feel quite obliged."

"Oh yes," said Mr L——, "I was sure it would cure you—you felt quite cool all the time you are taking it."

"Cool!" said the patient, "no, not exactly cool. I was rather hot. You know, a man can't drink a quart of spirits in the morning and keep cool."

"Spirits!" said Mr L——, rather astonished, "why there is no spirits in tea made of brandy."

"*Tea* made of *bran*," said his amazed friend, "it was hot brandy I drank."

An explanation of course followed—the gentleman, however, was cured.—*Saturday Evening Post.*

SAMUEL NOYES, Esq., of Castine, the veteran ship builder on Tuesday evening, on the steamer Daniel Webster, on his way hither, to make contracts for lumber for his ship-building, fell from the promenade deck to the main deck near the [illegible] and was so badly injured that he was unable to walk. He was taken on one of the tugs from this port to take him over to Castine. We understand that master Noyes has contracted for seven ships to be built by him.—*Mercury.*

SEARSPORT.—We learn that David Mosman, Esq., of Bangor, proprietor of the Mosman estate in Searsport village, has offered a portion of his lots for sale. This must be of great advantage to the people there, as a large portion of the stores in the village are built upon these lots, which the proprietors heretofore have only consented to rent. Mr Mosman has greatly improved them by laying out a beautiful street through the centre, to the shore.—*Belfast Free Press.*

LUMBER.—The receipts of Lumber during the last week have amounted to 6,319,309 feet, making over two hundred and seventy-three millions of feet (273,389,7[illegible] feet) since the commencement of the season. A slight advance has taken place in good clear and dry. The demand is tolerably good, and the yards are filling up.—*Chicago Times, Nov. 6.*

MYSTERIOUS DEATH.—About 1 o'clock Wednesday afternoon, a man named William G. [illegible], belonging on board the schooner Curlew, laying at T wharf, Boston, was discovered laying dead in the cabin of that vessel. Deceased was seen about an hour previous in his usual health on the deck of the vessel. He was thirty-eight years of age, and leaves a wife and one child in Pittston.

BURNED ON THE PRAIRIE.—SAD OCCURRENCE.—On the 8th ult., Mr Thomas Stephenson, of this county, while on his way to the new saw-mill on the north branch of the Minnehaha for lumber, was overtaken by the prairie fire and so badly burned that his life is almost despaired of. His face, neck and hands are covered with blisters, and his injuries, even should he live, will disable and disfigure him for life.—*St. Paul (Minnesota) Pioneer, Nov. 3.*

SKOWHEGAN BRIDGE.—A contract for rebuilding this bridge has been made with Mr Childs, contractor for building the bridge on the Som. & Ken. Railroad, for $2,500. The bridge is to be covered, 30 feet wide, with a foot walk five feet wide, outside the travel for teams. The masonry has been taken by Mr A. D. [illegible], of Bloomfield, who has commenced operations.—*Clarion.*

The Buffalo Republic says a female in that city, was on Wednesday night last, delivered of five offspring at a birth. The mother is doing well, but the most singular part of the affair is, that all the children were born blind. It is supposed, however, though they are very small, that four out of the five will live.

Our devil brags greatly on a watch of his that beat the town clock five hours and ten minutes in twenty-four, giving the clock two hours the start. There is as much difference, he says, in favor of the watch, as there is between a fast nag and clock-horse.—*Lafayette Journal.*

There is a tree on C. R. Alsop's farm in Middleton, Conn., which, a three feet in diameter, and is one half maple and one half white oak. The body of the tree is round and smooth, and the junction of the two varieties is marked by a slight ridge on the bark, which would hardly be noticed.

The Rev. Dr Palfrey remains with the Unitarian society, as we learn by their recent action. He is an excellent scholar and a model clergyman.—*Belfast Free Press.*

KENNEDY'S MEDICAL DISCOVERY.

The Greatest of the Age!

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR,* from the worst Scrofula down to a common pimple. He has tried it in over eleven hundred cases and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt-rheum.

Five to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing upon the pastures, and along old stone walls should cure every humor in the system; yet it is now a fixed fact. If you have a humor it has to start. There are no ifs nor ands about it; suiting some cases but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old to old people of sixty, and has seen puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet ever necessary. Eat the best you can get and enough of it.

Roxbury, Sept 19 1853.

This is to certify that H. H. HAY, Druggist, Portland, is the duly AUTHORIZED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE direct from my Laboratory.

Principal office and manufactory, 120 Arch st, Philadelphia, Pa.

TESTIMONY FROM MAINE.

Capt. Daniel Abbott, Brooklin, Maine, July 16, 1853, says: "I was taken sick one year ago last April, upon my passage from Havana to Charleston, S. C. At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite. At last taking up a newspaper having your advertisement of "Hoofland's German Bitters," in it I sent for some immediately. This was about 10 o'clock; at 11 o'clock I took the first dose, and another at 6 o'clock. The effect was so rapid on me that I had a good appetite for supper, and rested well that night, and the next day found me a well man—I have not been without your medicine since, having been sailing between Baltimore, Charleston, and the West India Islands ever since. I have now given up going to sea, and reside in this place, where you should have an agency, as you could sell large quantities of it."

J. S. B. Hall & Co., Presque Isle, Aroostook Co. Maine, April 13, 1854, say: "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters. We think Mr. Clark to be a man of veracity, and have no doubt of the truth of his story."

Messrs. Jos. B. Hall & Co.—Gentlemen—In answer to your inquiries, I will state that my daughter, aged about 16 years has been complaining of a pain in her side for six or seven years, and about the first of January last was taken down and confined to her bed. The pain in her side was very severe besides being troubled with pains between her shoulders and in her breast. From reading a number of cures performed by Hoofland's German Bitters, I was induced to try them in her case, and sent to your store and purchased *one bottle.* She had taken but a few days when she began to improve, and now, after taking *only one* bottle, she is enjoying better health than she has for years.—She feels no pain in her side or in any part of her body, and attributes her cure *entirely* to the German Bitters.

WILLIAM CLARK.

Salmon Brook, Aroostook Co., Me.

You should bear in mind that these Bitters are *entirely vegetable,* thereby possessing advantages over most of the preparations recommended for similar diseases.

General Debility. Ill Health.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

Female Complaints.
